PETITION TO MAKE SPECIAL

In view of the present and continuing environmental and energy crisis facing the nation at this point in time, we hereby request that our submitted invention be made special, since it deals directly with alleviating the nation's overwhelming dependence and reliance upon fossil fuels for powering automobiles and other vehicles of transport. Not only will the adoption of this invention lower the consumption of fossil fuels dramatically, but there will be an instant and substantial reduction in harmful emissions into the atmosphere with resultant savings of lives and improving the quality of life for the entire nation and throughout the planet.

It is submitted that this invention is a major technological advance and of immediate benefit to the public and of urgent need.

Edward LeRoy Swindell  
First Inventor, Pro Se

Stephen Galatti, Jr.  
Second Inventor, Pro Se
